

Brighter

Jared Anderson

Shelter in my storm
Victor in my war
Comfort the desperate heart
Hope when hope is gone
Love that just goes on
Life when death is at my door

(Chorus)

And I can't live without it
No, I can't live without it
Your love it carries me...
And You keep me, when I cannot keep control
And You see me, when I need someone to know
And You answer all my questions
When I'm so afraid to ask
Now my future so much brighter than my past

You and I both know...
Where my life would go, if I was not by Your side
Bend and break, I would just give-up, I should
And then I hear Your voice at night

(Chorus)

And You answer all my questions
That others fail to ask
And now my future so much brighter than my past
