

Heaven Stands Up

Jared Anderson

The lights they come on, the chains they fall off (No weapon)
Slaves they walk out singing (No, no weapon can take me out)
When I show up, Heaven shows up
When I stand up, Heaven stands up

I will whisper in the ears of giants
I will stare into the eyes of lions
You don't stand a chance, your power's reached the end
Don't you know who you are up against?

The lights they come on, the chains they fall off
Slaves they walk out singing
When I show up, Heaven shows up
When I stand up, Heaven stands up
We're taking our ground, making new sound
Children of God singing
When I show up, Heaven shows up
When I stand up, Heaven stands up

This is a revolt against the darkness
Truth restores what evil meant to steal
We're crossing border lines, the kingdom has arrived
Don't you know who you are messing with? Yeah

The lights they come on, the chains they fall off
Slaves they walk out singing
When I show up, Heaven shows up
When I stand up, Heaven stands up
We're taking our ground, making new sound
Children of God singing
When I show up, Heaven shows up
When I stand up, Heaven stands up

No weapon, no weapon can take me out
The God of the angel armies is with me now
No weapon, no weapon can take me out
The God of the angel armies is with me now

The lights they come on, the chains they fall off
Slaves they walk out singing
When I show up, Heaven shows up
When I stand up, Heaven stands up
We're taking our ground, making new sound
Children of God singing
When I show up, Heaven shows up
When I stand up, Heaven stands up
