

Double Dragon

Jared Evan

Rematch fight!

Uh, yo, Moe, where we at now?
Said it's been a minute since we put a rap down
You on the track? Then you better run a lap now
These motherf*ckers asleep taking a nap now

Bullets zipping like ka-pow
Everybody begging me to put the gat down
I'm astounded by the pretty sound
And asses shake, the thunder pound
And now we shining

Now we shining, I'ma climb in
Everybody go fast when we drop the novices
I don't know how they'll cop if we limit the dosage
I don't mean a rock when we speaking the dope shit

Gonna hit whoever closest
Unless you fly as murder hornets
Bout to kill a bee, boy don't approach this
This venom hitting pretty potent
Potent when we focused
Danny Ocean because all of these rappers will steal
I ain't gotta trap for a deal
Maybe I'm like Shaq with a drill
Motherf*cker I'm Illmatic, I got massive appeal

Now that God has appeared
They'll beg for forgiveness
The bomber dear popping off
These missiles in your ear
Ain't nobody is prepared for
How I make you feel

You could get f*cked up
If you turn this way
My words will punch you right all in the face
This time I won't be so nice of a guy
If you wanna start, then put up a fight (fight)

This time I won't be so nice of a guy
If you wanna start, then put up a fight
(Round 2, fight!)

When I steal the ship
I'm gonna sink em to the bottom like the real abyss
It's real as shit
You know I'm gonna write the right shit
I'm knocking rappers out like I'm like Mike Tyson
I got soul, yeah I been a Picasso
I'm in a living color like I'm Jamie Foxx though
And I don't want a bm like I been on the block though
I don't need a hit, but I'm willing to cop though

Take a hit of the no-doze
My diamonds are chilly

My momma think I'm cool enough
That I could close the ozone
These double dragon kids are so gone
It's danger when we throw the palm
They think it's a new methadone
They want it, I'm on it
You gotta come get it
Then hit it again and get with it like ahhh

Get with it I'm in again
I ain't sinning, you swimming in synonyms
You don't think that my sound is definitive?
You ain't fending this, out like a sedative
File when you get a biz
Vibe when I got that
Moe killing the sound and got contracts
Outside the rent we get this dough
Limited disco
Everybody get lit like they burnt in Crisco
You could get f*cked up
If you turn this way
My words will punch you right all in the face
This time I won't be so nice of a guy
If you wanna start, then put up a fight

You could get f*cked up
If you turn this way
My words will punch you right all in the face
This time I won't be so nice of a guy
If you wanna start, then put up a fight

Game over!
