

Me vs. Me

Jared Evan

Yo, now I'm finna start
This is where I depart your nikes from your feet
The mic from the beat, I'm nice when I speak
And I repeat the fact that I'm nice when I speak
My mind is wired, I'm higher than flyers
I'm Mike Myers fighting a fire, you better retire
It's like: you can never get my intellect
I've been a threat, been a vet, like cars in an intersect (shun
)
You, Get it? I just shunned you
You are now my son too

And what the f*ck a gun do?
When a rap battle could black shadows and smack adults
Huh, hold on, let me get up at you
I mean sneeze, let me get an achoo
Yeah, so I am God-
blessing I'm 'fessing the fact that I'm better Than raps
Sweaters and hats you're really mismatched
So get off my dick before I catch a rash

(x6)

I show, show you what you never know
Show you what you never know
