Sadie

Jared Evan

I want you to know that your mom's the greatest
She always used to look out for me that's how mama raised us
And since you came into the world I'm a return the favor
I'll save you from all the bad shit
And the questions you start asking later
This life is like an image that I can't explain
It's drawn with happiness but traced over with lots of pain
And when you grow up and you're finally getting older
You can thank your mom for the fact that I started over
Man she told me nothing's ever gonna be
The way we want it so we gotta pick up strongly
And your dad is a good man too
He loves your mother he'll walk on glass if he has to
Yeah know that I'm inspired by you

I heard of love at first sight who woulda thought it be true
It's you you brought this all back together
And for that I owe you forever

That's my Sadie
I never thought someone could make me feel this loved
Feel this loved
Oh that's my Sadie
I wanna make the world better for you Give me a picture and I'l
l paint it for you
Don't think I'm not gonna play this for you

I say oh that's my Sadie
I never thought someone could make me feel this loved
Feel this loved
Oh that's my Sadie
I wanna make the world better for you Yeah
What do you see huh
What do you see
This little girl
What's that oooh
Playtime
