

You & I

Jared Evan

[Verse 1]

Drift away
Floating on a cloud in the sky
I go and get lost sometimes
But I've got you to rely on
What's insane
Is I don't think that I would be ok
If you were to leave sometime
Cause I'm not good with goodbyes, oh

[Pre-Chorus]

I'm scared of being all alone
It's such a joke
Without you I'm invisible
Like I'm a ghost
Don't know how I would carry on
In my mind
If you ain't inside it

[Chorus]

I take my time
When the stakes are high
Bleed my pockets dry
When it all falls down
Won't say goodbye
You could stay the night
Ain't got lots of time
When it all falls down
It's you & I

[Verse 2]

I'd go down with the tide
If our waves they collide
Even if it means I'll sink to the bottom
I don't know how to survive
Inside a world that's just so cold
All of the words that you write
I'll memorize

[Pre-Chorus]

I'm scared of being all alone
It's such a joke
Without you I'm invisible
Like I'm a ghost
Don't know how I would carry on
In my mind
If you ain't inside it

[Chorus x2]

I take my time
When the stakes are high
Bleed my pockets dry
When it all falls down
Won't say goodbye
You could stay the night
Ain't got lots of time
When it all falls down

It's you & I
