

# Midnight

Jarreau Vandal

I been gone, yes, I been OT  
Only one with the recipe  
Baby gyal wanna be with me, be with me, be with me  
I been gone, yes, I been OT  
Only one with the recipe  
Baby gyal wanna be with me, be with me, be with me

Freaks coming out when the night fall (Hey)  
Ain't no loving on the dancefloor  
Ain't no fucking in the champagne room  
Save that shit for the parking lot  
Rare Kitty like Ocelot  
She let me hit it in the parking lot  
Then claim I talk a lot  
For a nigga with no garage  
Smile sat pretty like pageant, hmm  
Looking like you wanna see some action, hmm  
I ain't never ran off from a challenge, hmm  
If I take an L, I make it back flip, back quick  
Stuff a day's work in a mattress, hmm  
Till they know my name around the atlas, hmm  
Lady, where you going bring it back quick  
I can tell you done had you some practice

You fall in love by midnight  
I fall in like like midday  
You come alive by moonlight  
I know your love too risky  
I know you like I do  
When morning come you'll miss me  
Don't know you like I do  
When morning come you'll miss me

I been gone, yes, I been OT  
Only one with the recipe  
Baby gyal wanna be with me, be with me, be with me  
I been gone, yes, I been OT  
Only one with the recipe  
Baby gyal wanna be with me, be with me, be with me

Damn that kitty golden, make me wanna dig deep for it  
You know dig deep for it, you know, really putting work in  
You ain't gotta tell me twice  
If you gimme one night, I'ma make that worth it  
Señorita don't front  
If you lay that back down on me  
I'ma back stroke on you  
Till the sun come up, so what  
Now you wanna act shy on me, that's cool  
I'ma just slide on your homie like oops  
Please let me know when you're ready  
We can slide to the telly  
You can show me what you really wanna do  
Brotaa! Brotaa! (Like ooh)  
My ride's outside (Like ooh)  
Sunrise come trouble my mood  
Let's vibe, let's bubble, let's juice, juice, juice

You fall in love by midnight  
I fall in like like midday  
You come alive by moonlight  
I know your love too risky  
I know you like I do  
When morning come you'll miss me  
Don't know you like I do  
When morning come you'll miss me
