

My Love

Jarreau Vandal

My love, my love...

He said and she said
Be a romantic, like
Love could be a fairy tale
Somebody's out there
Waiting for you

But every time and time again
I see the passion come to the end
I swear my hearts keeps telling me
Fire burns naturally

Then I found you
You're my air to breathe
Got me staying up, having daydreams
Let me love you
Wanna love you
My love, my love

My love, my love...

Never thought I'd see the day
I would find my missing piece
Nearly threw it all away
Now you're lying right next to me

And I never wanna let go
I'm saying goodbye to sleepless
Nights on my own

Then I found you
You're my air to breathe
Got me staying up, having daydreams
Let me love you
Wanna love you
My love, my love

I found, I found...

My love, my love...
