

Nothing Nice

Jarreau Vandal

I'm tired too
I wear my smile just like you (Just like you)
Days come and go when it different
Pray when you feel no one listens
I wear my smile just like you (Just like you)
Roll up a plane and go missing (Go missing)
Ride into rain in the distance
Hope that I don't get too distant

I watched the world go crazy
They called the young man lazy
I watched the government shift
And start to bicker like babies
I pray the Lord come save me
Like, no don't worry I wait
Desensitise what's on TV
See niggas die every day (Die every day)

Nothing nice
Streets turn red like a summer night
I just wanna see another summertime
Summertime
Summertime

Still thank Jah in the morning
Even when the blessings stop calling
I just wanna see another summertime
Summertime
Summertime

Like this, ooh
Red summer, mood switched
Lift up the temperature
These streets cold that we know
But that's just regular
Careful when you speak on your truth
They shooting messengers
Thick skin and bullet-proof vest
Are my exterior
Traffic was the best place to think about my movements
They said if I had drive better prove it
Tired of the slick talk
Tapping at computers
I mean, once I find my ways
I was different on the router
Tell the driver cut the radio down
I mean it's cool or whatever
I'm just used to the sound
It's all samey, could you blame me?
Keys ain't been this nice since the 80s
Me and mine ain't settling for maybes

Nothing nice
Streets turn red like a summer night
I just wanna see another summertime
Summertime
Summertime

Still thank Jah in the morning
Even when the blessings stop calling
I just wanna see another summertime
Summertime
Summertime
