

Rabbit Hole

Jarreau Vandal

Don't give in yet
I still want to play
Take a little time
Before we end this game

Let's stretch ourselves
There no test to fail
I'll let you nail
Trace me undress yourself
I'll watch you go
Till you're stripped head to toe
Get down extra low
Don't stop I'll let you know
Leave you overcome
I'll never be overdone
This game's over fun
Our time might overrun
Hold your tongue it's mine for now
No words just vibe out
Unless you want to bone
Tie you down so feel free to wind around

Push me
I want to go
Further down this rabbit hole
Push me
I want to go
Further down this rabbit hole

Don't give in yet
I still want to play
Take a little time
Before we end this game

Let's push ourselves
I never look to fail
Heat you up I'll cook you up
Make the story good to tell
Don't stress yourself
There's no need to be
Play this thing easily
Until you reach the peak
Then go back again
It's no accident
Any time just count me in
Till I'm short on oxygen
I won't stop then won't need the air
Where you want to
Can you feel me there?
I know you're ready to be feeling clear
So tension can you leave it here?

Push me
I want to go
Further down this rabbit hole
Push me
I want to go

Further down this rabbit hole

Push me

I want to go

Further down this rabbit hole

Push me

I want to go

Further down this rabbit hole

Don't give in yet

I still want to play

Take a little time

Before we end this game

Push me

I want to go

Further down this rabbit hole

Push me

I want to go

Further down this rabbit hole

Push me
