

Slow It Down

Jarreau Vandal

You've been running round all day
Steady on the grind always
God I hope they see you move
Just the way I know you do
Don't forget to take a breath
Don't you work yourself to death
There is only one like you
No one loves the way you do

I'll meet you right where you are (meet you where you are)
Call for me I won't be far (won't be far)
If you ever need a place (need a place)
Right here is where you can
Lay your head on my shoulder (lay your head)
Lay your head on my shoulder (lay your head)
Lay your head on my shoulder (lay your head)
Lay your head on my shoulder

Slow it down it's alright
Hold my hand don't let go til you feel light
Darling you're the one that makes it alright
Love you gotta know it
You should let me show it

Slow
Slow

I don't care about your boss
Tell him he can go get lost (get lost)
Don't you stress about no bills
I got you just keep it real

I'll meet you right where you are (meet you where you are)
Call for me I won't be far (won't be far)
If you ever need a place (need a place)
Right here is where you can

Slow it down it's alright
Hold my hand don't let go til you feel light
Darling you're the one that makes it alright
Love you gotta know it
You should let me show it

Slow it down it's alright
Hold my hand don't let go til you feel light
Darling you're the one that makes it all right
Don't worry bout tomorrow
You should let it all go

Slow
Yeah
Slow
Yeah

Lay your head on my shoulder (lay your head)
Lay your head on my shoulder (lay your head)
Lay your head on my shoulder (lay your head)

Lay your head on my shoulder
