

## Bubble

Jarren Benton

Get fresh 7 days of the week and  
Live life everyday as the weekend  
That's what we call, call bubbling  
Call, call bubble, call, call, call bubbling  
Make getting money look so easy  
I don't know about you but we eatin'  
That's what we call, call bubbling  
Call, call bubble, call, call, call bubbling

Pay attention ladies and gents, it's Jarren Bent  
Remember waking up nights feeling like I was shit  
Feeling inadequate  
Couldn't bring home the bacon  
Baby mama bitching  
The bread wasn't bakin'  
Like a retired doctor I had no patience  
Lord show me a sign cause I am sick of waitin'  
I'm anticipatin' to get out the situation  
Feel like I'm living in hell right next to Satan  
Wait, wait, oh, woah, no, this can't be life  
All the struggle, all the pain, no this can't be right  
It's when I start believing in me  
Like a bird soaring through the sky I'm feeling so free

What don't kill me only makes me stronger  
Baby I'm a motherfucking east side monster  
Beast in this game, you can hear his hunger  
Growl in his stomach, I came from down under  
I do this for Gia  
America's nightmare  
Family counting on me, I'll be right there  
Can't lose  
Can't snooze  
Greedy like two Jews  
Nieces, nephews  
Jarren to the rescue  
I'm special  
If you hating on me, God bless you  
I hex you  
Negative energy couldn't pierce through  
Coming soon to a record store near you  
Light years past y'all, looking out my rear view  
I'm bubbling
