COVID-19

Know the facts, know the disease  
If you get sick in 2020, begin the quarantine  
COVID-19

Don't freak out, but don't be a fool  
Misinformation is all I see, please consult the CDC

Always wash your hands  
For a minimum of twenty seconds  
If you use sanitizer  
No less than sixty percent alcohol

Stay home if you have a fever with a cough  
You are still contagious while you're asymptomatic

Six feet of contact is all that it needs  
Respiratory droplets from a sneeze  
Transmission from surfaces commonly touched  
Two days to two weeks until symptoms show up

COVID-19  
Know the facts, know the disease  
If you get sick in 2020, begin the quarantine  
COVID-19  
Don't freak out, but don't be a fool  
Misinformation is all I see, please consult the CDC

Disinfect your kitchen, it's where you make your food  
Disinfect your bathroom, it's where you share your poos  
Disinfect your doorknobs, they'll get you by surprise  
And most importantly, don't touch your nose, mouth, and eyes  
Don't go to China, don't eat the noodles  
Don't go to Japan, don't eat the sushi  
Don't go to Italy, don't eat the spaghetti  
Don't go to Iran, you shouldn't be going there anyway  
Don't be a racist, be nice to the Asians  
You won't get the virus from Panda Express  
If you're still angry, get mad at the incompetent politicians  
Who won't do their fucking jobs
