I'm good at math, I'm smarter than you
You are so dumb, I'm better at math

Numerical problem solving
Chaos and dynamical systems

I'm good at math, I'm smarter than you
You are so dumb, I'm better at math

That's why I'm leaving you

Differential equations, computational geometry
Integrative bioinformatics

I'm good...

"Hey, hey, hey! Stop, stop, stop, stop! What the hell was that?"

"

"Dude, we're just jamming out. What's the deal?"

"None of that made sense! What-what tempo is this?"

"Bro, I'm sorry if what we play goes over your head a little bit"

"No-no-no, I-I totally understand, it's just, you're playing musical gibberish"

"I mean, it's okay if your brain can't handle advanced polyrhythms like this"

"Okay, okay, forget it. Let's just start from the top, okay?"

"Okay fine, forget it"

I'm good at math, I'm smarter than you...

"Stop, stop, stop, stop! My God! Okay, you know what? Forget this song, we're done"

"Fine! Whatever, have it your way"

"We're done, Jeez..."

"Quit it! I swear to God! Okay, let's just go to the next song. Next song, right now"
