

Don't Forget

Jarryd James

Play me that song that you played me all night
When the love was enough
No sleep, no sleep and I'm so deep
Praying don't forget about us

Harder than it should be
Throw me into the deep water

But don't forget about us
Sweet darling
Don't want nothing but love oh
Don't forget about us
Sweet darling
Don't want nothing but love oh

Late night pull up with the same types
Come home like a thief in the night
I see you, I feel you believing
Believing that the love is enough

Harder than it should be
Throw me into the deep water

But don't forget about us
Sweet darling
Don't want nothing but love oh
Don't forget about us
Sweet darling
Don't want nothing but love oh

I don't know if I could give it up even when
It's all the time up in my head all the time up...
I don't know if I could give it up even when
It's all the time up in my head all the time up...
I don't know if I could give it up even when
It's all the time up in my head all the time up...
I don't know if I could give it up even when
It's all the time up in my head
