Give Me Something

Jarryd James

Will we find the place to start
Can anybody avoid the pain in it
Can anybody point out the pain in it
Love like this will leave her mark
Can anybody point out the danger in it
Can anybody avoid the danger in it

Give me something from your heart
Can I get a little bit of your attention
Can I get a little bit of your affection
All I need is in your arms
Can I get a little bit of your attention
Can I get a little bit of your affection
Give me something, give me something

Will we find a way to start
Can I hold you for the one night
I wanna be with you for the whole night
Let me show you who you are
Can I hold you for your whole life
Wanna be with you til your last light

Give me something from your heart
Can I get a little bit of your attention
Can I get a little bit of your affection
All I need is in your arms
Can I get a little bit of your attention
Can I get a little bit of your affection

Give me one thing
Give me something
I need something
Give me everything at once
I need something
Give me one thing
I need one thing
I need everything at once

Give me something from your heart
Can I get a little bit of your attention
Can I get a little bit of your affection
All I need is in your arms
Can I get a little bit of your attention
Can I get a little bit of your affection
Give me something from your heart
Can I get a little bit of your attention
Can I get a little bit of your affection
Give me something, give me something
