

I Do

Jarryd James

When you can't feel the feelings
Through the space in between us
Let it go
Let me go
When the time comes for meaning what you say
Let the inhibitions show

Too many times I complicate
The reasons why I say I want it all
Too many times I compromise
And tell myself I know why I said that

Everything I do, I do for you
No one else
Nobody ever knows me like you
Nobody ever knows me like you
Everything I do, I do for you
No one else
Nobody understands me like you
Nobody complicates me like you

When I'm feeling all alone now
When I call you on the phone now
Let me know if I can show you how
I justify the way I turn you down

Too many times I complicate
The reasons why I say I want it all
Too many times I compromise
And tell myself I know why I said that

Everything I do, I do for you
No one else
Nobody ever knows me like you
Nobody ever knows me like you
Everything I do, I do for you
No one else
Nobody understands me like you
Nobody complicates me like you

Kiss me slowly for first time
All these things that we still dream about
Kill me slowly for the last time
If we ever feel like it's not...

Everything I do, I do for you
No one else
Nobody ever knows me like you
Nobody ever knows me like you
Everything I do, I do for you
No one else
Nobody understands me like you
Nobody complicates me like you

Everything I do, I do for you
No one else
Nobody ever knows me like you

Nobody ever knows me like you
Everything I do, I do for you
No one else
Nobody understands me like you
Nobody complicates me like you
