Problems

Jarryd James

We both feel the same
We don't feel no pain
Pour me one more time
Lean on me again
Go straight to my veins
It won't make no difference
In another life
Lean on me again

We're running out of time and we're not gonna get it back
No, we're not gonna get it back
We never know enough, but we know what we cannot have
But we know what we cannot have
We're running out of problems, oh
We're never gonna get it, we're never gonna get it back

Getting to better days
Rush straight to my head
Know no better way
To calm my mind instead

We're running out of time and we're not gonna get it back
No, we're not gonna get it back
We never know enough, but we know what we cannot have
But we know what we cannot have
We're running out of problems, oh
We're never gonna get it, we're never gonna get it back

We're running out of time and we're not gonna get it back
No, we're not gonna get it back
We never know enough, but we know what we cannot have
But we know what we cannot have
We're running out of problems, oh
We're never gonna get it, we're never gonna get it back

When you think you know me
Do you really know me?
When it comes down, will ya
Will ya, will ya want me?
When you think you know me
Do you really know me?
When it comes down, will ya
Will ya, will ya, will ya, will ya
Will ya want me?

We're running out of time and we're not gonna get it back
No, we're not gonna get it back
We never know enough, but we know what we cannot have
But we know what we cannot have
We're running out of problems, oh
We're never gonna get it, we're never gonna get it back

We're running out of time and we're not gonna get it back
No, we're not gonna get it back
We never know enough, but we know what we cannot have
But we know what we cannot have
We're running out of problems, oh

We're never gonna get it, we're never gonna get it back

We're never gonna get it, we're never gonna get it back
