

Regardless

Jarryd James

Every little part of you won't hurt nobody
Loving what we're not meant to
Can't hurt nobody
Everything we used to do can it hurt somebody
Never really wanted to
Every little part of you

It hurts to love you like I do
Give me all of you, in the night I'm looking for a heart to be
with my body
Everything you need at the right time
Looking for love regardless, you're leaving
Give me all of you, in the night I'm looking for a heart to be
with my body
Everything you need at the right time looking for love regardle
ss,
every little part of me won't hurt no more
Everything you want to be, we've been here before
Was it just a way to leave
Oh, loving every little part of you
Every little part of me.

Nobody loves me like you do ooh

Give me all of you, in the night I'm looking for a heart to be
with my body
Everything you need at the right time
Looking for love regardless, you're leaving
Give me all of you, in the night I'm looking for a heart to be
with my body
Everything you need at the right time
Looking for love regardless, regardless
