

Slow Motion

Jarryd James

I need love
I need to feel more of your love
Higher powers
Couldn't keep me from you, oh

But the sun is still shining on me
And the moon is in the sky where you are
So you better be praying for me
That I make it home alive

I'll never let you go
Never let you go
Never let you go no no
I'll never let you go
Never let you go
Never let you go no I won't
Even when I can't see straight
Even when I lose my faith
I'll never let you go
Never let you go
Never let you go oh oh

Time moves in slow motion
Whenever I'm gone
Heavy on my heart
And I feel it all night long

But the sun is still shining on me
And the moon is in the sky where you are
So you better be praying for me
That I make it home alive

I'll never let you go
Never let you go
Never let you go no no
I'll never let you go
Never let you go
Never let you go no I won't
Even when I can't see straight
Even when I lose my faith
I'll never let you go
Never let you go
Never let you go oh oh

So many faces I see
But the only one that I need is you
Is you, is you
Only one that I need is you
So many places I be
When the only place that I see is next to you
Is next to you

I'll never let you go
Never let you go
Never let you go no no
I'll never let you go
Never let you go

Never let you go no I won't
Even when I can't see straight
Even when I lose my faith
I'll never let you go
Never let you go
Never let you go oh oh
