

Stop Me

Jarryd James

I'm better and I'm worse
All in the same moment, it's the danger zone
I'm better, but it hurts
Much longer than the pauses allow for
I stay here, don't you know
Fading in and out of dreaming
For so long, take the medicine
Where's your shoulder? Show me your shoulder

Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright

I'm better when I know
There's a dark night coming and it's sure to bring
Cold comfort to my bones
It's a long, long story but it's what I need
There's something 'bout the come down since you came 'round
Letting in the sunshine
For so long, take the medicine
Where's your shoulder? Show me your shoulder

Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright

Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright
Stop me before I fall apart
And then it's over
Slowly, I'm alright
