

# This Time (Serious Symptoms, Simple Solutions)

Jarryd James

Last time, we were in it, in it  
Translating our feelings within  
Now we're right back in it, in it  
All I, all I can say is

Hold me back, tell me something  
Something that will bring me closer to you  
Had enough, fall back in  
Falling for the thing that brought me

Love, our love, our love can't make it now  
Can't we, can't we, can't save it now  
Our love, our love, won't make it now

No one really wins this time  
No one really wins this time around  
No one really wins this time  
Nobody

Last time, we were in it, in it  
We had, we had nothing in between us  
Now we're right down in it, in it  
Million different reasons you should hold me

Hold me back, tell me something  
Something that will bring me closer to you  
Had enough, fall back in  
Falling for the thing that brought me

Love, our love, our love can't make it now  
Can't we, can't we, can't save it now  
Our love, our love won't make it now

No one really wins this time  
No one really wins this time around  
No one really wins this time  
Nobody

No one, no one, no one, no, no  
No one, no one, no one, no, no

Love, our love, our love, can't make it now  
Can't we, can't we, can't save it now  
Our love, our love won't make it now

No one really wins this time  
No one really wins this time around  
No one really wins this time  
Nobody

No one really wins this time  
No one really wins this time around  
No one really wins this time  
Nobody
