

Underneath

Jarryd James

When you show me how to break, too far down to make it wait,
maybe love is a mistake, show me reasons to stay,
all we gotta do is indicate the wrongs that we make,
the lines that we take

Maybe we were so underneath it the only way to make it will set
you free,

Mmm we were underneath it, oo-ooo

maybe we were so underneath it the only way to make it will set
you free,

thinking over every feeling oh I gave up under the weight of it

Surely we can learn from our mistakes, fix the heart's that we
break,

loneliness can be the fire that we need to escape, all we need
to do is simply find the lives that we make,
the lines that we take ooo

Maybe we were so underneath it the only way to make it will set
you free,

Mmm we were underneath it oo-ooo

maybe we were so underneath it the only way to make it will set
you free,

thinking over every feeling oh I gave up under the weight of it

Take me, take me, take me, take me down
Take me, take me, take me, take me round
Take me, take me, take me, make me drown again

Maybe we were so underneath it the only way to make it will set
you free,

Mmm we were underneath it

Maybe we were so underneath it the only way to make it will set
you free,

Mmm we were underneath it

Maybe we were so underneath it the only way to make it will set
you free,

thinking over every feeling oh I gave up under the weight of it
