Undone

Jarryd James

Everything about it,
Got me waiting,
Where would I go,
And find you there.
Praying,
Broken chords,
Broken without you.
How did we arrive here,
Separated,
All the shit we've taken,
Never got,
Never got us high enough baby.

I don't know how to save us,
I've got nothing to live for,
It's bringing me down,
From a love skyward bound.
Foolish games that we play,
Leave me cut, leave me sane,
It's prayers everyday,
Everyday, everyday, everyday.
Bitter,
Sweet sweet sweet sweet love,
Sweet sweet bitter love,
Now tell me you,
Will you let it undo,
Bitter,
Sweet sweet sweet sweet love,
Sweet sweet bitter love,
Now tell me you,
So just let it undo,
Never leave me be,
Never let me leave,
Nothing to do,
But to let it undo.

I don't know how to say this,
I don't know how to say this,
I don't know how to say this,
Really don't know how to say this.
