

# Save The Whale

Jarvis Cocker

Take your foot off the gas  
Because it's all downhill from here  
(Downhill from here)  
You are a manifestation of the universe  
Your form is unimportant  
But please, come over here  
(Come over here)  
While the world got technologically  
Infatuated  
I was busy gettin' saturated  
I like it, dog  
Movie on the yin and yang  
For you and me  
The male and the female

Move  
Move beyond the pale

Tell the truth  
Hold my hand  
Touch the void  
Fight the power  
Save the whale  
(Save the whale)  
Face the people  
Face the music  
Fight the flab  
Keep the faith  
And live to tell the tale  
(Live to tell the tale)

You think I'm kiddin'  
You have misunderstood  
Can't you see?  
I'm up to no good  
Save your breath  
Save your soul  
Embrace the darkness  
And all that it entails

Move  
Move beyond the pale

I've seen people  
Doggin' the walls  
With semen and blood  
I swear to God  
I'm not makin'  
Any of this up

Wrinkly world (Wrinkly world)  
Smooth world (Smooth world)  
Wrinkly world (Wrinkly world)  
Smooth world (Smooth world)  
Wrinkly world (Wrinkly world)  
Smooth world (Smooth world)  
Smooth world (Smooth world)

Smooth world

Me and you

We've gone and founded a new

Civilization

(Congratulations)

Now how much are we

Gonna charge people

For admission

(Free admission)

I ain't askin' what's in it for me

Just followin' a biological necessity

Burn your bridges

Burn your fingers

Freeze in heaven

Burn in hell

Or blaze the trail

You gotta move

Come on and move

You move beyond the pale
