

Tear The Sky

JASIAH

Hey, hey
Tell me we need to do, I been so independent
We know I never follow suit, tell that to your fucking dentist
And you're stuck inside a room, but you're still tryna finish
And nobody think you're cool with all them fucking gimmicks
I ain't really tryna play, you ain't nothing but the deadly
I ain't getting to the money, spend it, tryna find a way
And I want to be the ruler but I don't know what to live
Fuck I just want my way
Get the fuck up my face
Get the fuck up my face
Things aren't getting cold but there's fire in the place
I cannot be cold just to protect my energy
Body for body, when we shot him, feeling brave
I care
I cannot be near you
Hit me with the fuck around, I lose it in the rearview
I hate all you fuckers and I'm being real sincere too
I ain't worry 'bout it 'cause you'll meet your maker real soon

Running through the fire
Running out of time
It's through the paradigm
Rule the paradigm
I wanna tear the sky
See where the ferrets fly
It's for the bay life
For the bay life
For the bay life
For the bay life
For the bay life
For the bay life
For the bay life
For the bay life
