

Every Step

Jasmine Murray

I've been walked on, let down, lied to
Felt the sting of life
I've been stranded, abandoned, and branded
As a broken child

These are the things that have marked my heart
But you've always loved me from the start
But You've always loved me from the start

I know you're never gonna hurt me
I know, I know you're trustworthy
Oh Lord, you'll never desert me
And through the fire and the flood
You've never given up

Every fear I've faced
Every tear I've cried
Every dark night
You've been there by my side
Every step, every step
Every step of the way

No more doubting, and striving, in hiding
Now I am secure
Your arms have me covered,
You love like no other I am yours

And You wear the scars that unchained my heart
Now I am saved, I am safe
In who you are

I know you're never gonna hurt me
I know, I know you're trustworthy
Oh Lord, you'll never desert me
And through the fire and the flood
You've never given up

Every fear I've faced
Every tear I've cried
Every dark night
You've been there by my side
Every step, every step
Every step of the way

I have a hope
On this broken road
I'm not alone
Lover of my soul

I know you're never gonna hurt me
I know, I know you're trustworthy
Oh Lord, you'll never desert me
And through the fire and the flood
You've never given up

Every fear I've faced
Every tear I've cried

Every dark night
You've been there by my side
Every step, every step
Every step of the way
Every step, every step
Every step of the way
Every step, every step
Every step of the way
