

Vapor

Jasmine Murray

Looking back, what have I done?
I can't shake every regret that's on my mind
I've been worried watching the clock
I can't stop the days, they keep on flying by

All of my stressing
Never gave me a second more
There is only one who's in control

Can't take it for granted
Cause life is way too short
To gain all of the world and lose your soul

I don't wanna waste my time or waste another breath
Only wanna give my all until there's nothing left
I wanna run and love like there's no tomorrow
And finally live for something greater
Life is just a vapor
Just a vapor
Just a vapor
Just a vapor

I wanna go beyond my fears
Be who I was made to be without compromising
Every day is bigger than me
There is more to who we are than just surviving

Can't take it for granted
Cause life is way too short
To gain all of the world and lose your soul

I don't wanna waste my time or waste another breath
Only wanna give my all until there's nothing left
I wanna run and love like there's no tomorrow
And finally live for something greater
Life is just a vapor
Just a vapor
Just a vapor
Just a vapor

Here today and gone tomorrow
All our time is only borrowed
What is your life?
What is your life?

Here today and gone tomorrow
All our time is only borrowed
What is your life?
What is your life?

I don't wanna waste my time or waste another breath
Only wanna give my all until there's nothing left
I wanna run and love like there's no tomorrow
And finally live for something greater
Life is just a vapor
Just a vapor
Just a vapor

Just a vapor...
