

# Wonderland

Jasmine Thompson

Hey, loving you is insane  
Oh, but maybe loving me is the same

'Cause I get really lost sometimes  
All I do is try and try  
Nothing ever goes to plan  
Always getting locked outside  
We're just try to feel okay  
Someone take us somewhere safe

Wasted youth in wonderland  
Can't help it  
We fall in love with all our messed up friends  
We're so sad with our happy lives  
We need each other  
'Cause we're kids on the inside

Wasted youth in wonderland  
Can't help it  
We fall in love with all our messed up friends  
We're so sad with our happy lives  
We need each other  
'Cause we're kids on the inside

Wasted youth in wonderland  
  
Can't help it  
We fall in love with all our messed up friends  
We're so sad with our happy lives  
We need each other  
'Cause we're kids on the inside

I just wanna be a gypsy woman  
Singing my sad songs  
I wanna share them with you  
'Cause when I heard the music  
It changed me, it helped me, it saved me, yeah

I just wanna be a gypsy woman  
Singing my sad songs  
I wanna share them with you  
'Cause when I heard the music  
It changed me, it helped me, it saved me, yeah  
It changed me, it helped me, it saved me, yeah

Save me from all my pain  
Oh, hey, help me to escape, oh
