

Wonderland

Jasmine Thompson

Hey, loving you is insane
Oh, but maybe loving me is the same

'Cause I get really lost sometimes
All I do is try and try
Nothing ever goes to plan
Always getting locked outside
We're just try to feel okay
Someone take us somewhere safe

Wasted youth in wonderland
Can't help it
We fall in love with all our messed up friends
We're so sad with our happy lives
We need each other
'Cause we're kids on the inside

Wasted youth in wonderland
Can't help it
We fall in love with all our messed up friends
We're so sad with our happy lives
We need each other
'Cause we're kids on the inside

Wasted youth in wonderland

Can't help it
We fall in love with all our messed up friends
We're so sad with our happy lives
We need each other
'Cause we're kids on the inside

I just wanna be a gypsy woman
Singing my sad songs
I wanna share them with you
'Cause when I heard the music
It changed me, it helped me, it saved me, yeah

I just wanna be a gypsy woman
Singing my sad songs
I wanna share them with you
'Cause when I heard the music
It changed me, it helped me, it saved me, yeah
It changed me, it helped me, it saved me, yeah

Save me from all my pain
Oh, hey, help me to escape, oh
