

Never

Jasmine Villegas

I told myself not to get too close
But I did, yeah
I told myself I'd learn you the ropes
But I slipped, yeah
I think I got the message
On how I learn my lesson this time
This time, yeah

Even if it kills me
I promise I'll get over you
Tryna find the real me
Something that was overdue
I hope you can still see
Everything I showed to you
Cause you'll probably never see me again

I told myself I won't make those same old mistakes, no
Cos I got moves and money to make, yeah
I'm done with all the pressure
I don't need your lecture this time
This time, yeah

Even if it kills me (kills me)
I promise I'll get over you
Tryna find the real me
Something that was overdue
I hope you can still see
Everything I showed to you
Cause you'll probably never see me again

Cause you'll probably never
You won't ever see me
Cause you'll probably never
See me again
Cause you'll probably never, never
See me again
Cause you'll probably never
See me again
Cause you'll probably never
Cause you'll probably never
