

Walk Away

Jasmine Villegas

I don't wanna talk about it any more
You chose to leave me here to explore
Go 'head, search in the sea, there's plenty more
But don't expect me to leave my door, open for you

And there's no looking back, you chose to walk the path
Of tearing up my heart, oh boy I loved you
Look at the mess you made, you threw a hand grande
And blew up everything, oh boy I'll put you out-

I will never
Make the same mistake
I'll be better
It's time to walk away

I've taken my love on the sober road
You don't deserve me here anymore
Cause these nights are made crying alone to my lot a fear
The pain you gave, you never know I'm done with all these tears
You'll never find another me, no
Oh I'm over, oh I'm over you
