

Skin On Skin

jasmine.4.t

Skin on skin
Can you press it all down on me?
Skin on skin
Can you show me what friends can be?

Show me the places I've never been
Between the heat of your sweat and the cold wall you press me t
o
My body is all for you
So do what you want, said you do what you want

Salt and spit
Can you taste my pulse inside your cheek?
Brace and bit
Can you drill me in when my legs are weak?

Show me the river inside of you
As your eyes start to glaze with your warmth covering my mouth
You're a maze, you're the sun in the south
So do what you want, said you do what you want

Time is all I need I time if you'll wait
For the whites of my eyes as the waves roll in
Roll and hold me against your back, pull me in
I need time with your skin on my skin

Teeth on lips
Can you make every nerve of my body strain to your
Fingertips?
Can I make every curve of your body sway as I

Show you the love that I made for you?
Real love is a gift, real love is the sweat on your back
Real love ain't a heart attack
It's just what you want, said it's just what you want

Time is all I need, I time if you'll wait
For the whites of my eyes as the waves roll in
Roll and hold me against your back, pull me in
I need time with your skin on my skin

Show me the river inside of you
As your eyes start to close when your warmth comes from deep wi
thin
You're the earth, you're the sun on my skin
You're just what I want and that's just what you want
