

Came Here to Drink

Jason Aldean

I didn't show up to cover up anything
Didn't walk through that door to forget about what's-her-name
No, I didn't have a bad day
It ain't what you think

I just came here to drink 'cause it's five o'clock
Pour me the good stuff right from the top
Here to let out the laughs and breathe in the smoke
Get high on the night and the midnight glow
Sit on this barstool, live on neon time
Yeah, tonight I just came here to drink

I just wanna sit here and listen to the jukebox
Hear that song that puts me in a good spot
No, it ain't like this every night
Oh but this time

I just came here to drink 'cause it's five o'clock

Pour me the good stuff right from the top
Here to let out the laughs and breathe in the smoke
Get high on the night and the midnight glow
Sit on this barstool, live on neon time
Yeah, tonight I just came here to drink

I just came here to drink 'cause it's five o'clock
Pour me the good stuff right from the top
Here to let out the laughs and breathe in the smoke
Get high on the night and the midnight glow
Sit on this barstool, live on neon time
Yeah, tonight I just came here to drink

Yeah, I just came here to drink
Yeah, I just came here to drink
