

I Don't Drink Anymore

Jason Aldean

She don't like this bar
She don't like my friends
She thinks we party too hard
She said it's me or them
She said I need to change my ways
Boy you got a choice to make

So I don't drink anymore
Ever since she left
I don't drink any more
And I don't drink any less

She picked a bad time
To try to slow me down
And this ain't a good night
To try and turn me around
I still like to get crazy nothing new
Still like to have a few

But I don't drink anymore

Ever since she left
I don't drink any more
And I don't drink any less

I didn't want her to go
And it's not that I don't give a damn
I just want someone to want me
For who I am
And this is who I am

She said I need to change my ways
Boy you got a choice to make

So I don't drink any more
Yeah tonight you can bet
I don't drink any more
And I don't drink any less
I don't drink any more
And I don't drink any less
