

# Keeping It Small Town

Jason Aldean

Yeah we proud of that name painted up on that water tower  
And that red dirt on the bottom of our boots  
This place runs 35 miles an hour  
And that hard work runs in our roots  
Yeah we're all just backbone blue-collar people  
Burning that Texaco black smoke diesel

Yeah we're keeping it small town, keeping it slow  
Keep that dust stirred up on them ol' dirt roads  
Yeah we keeping them girls up in them shotgun seats  
Got that good stuff waiting on the end of the week  
It's the way we were raised and we ain't changing now  
You can find us sun up to sun down yeah  
Just keeping it small town  
We're keeping it small town

Yeah we just trying to be 'bout half good as our daddies  
Still trying to make a name of our own  
Find a little girl you can roll with and  
Ride with and make a good life with and  
Love her til you're gone

We're just keeping it small town, keeping it slow  
Keep that dust stirred up on them ol' dirt roads  
Yeah we keeping them girls up in them shotgun seats  
Got that good stuff waiting on the end of the week  
It's the way we were raised and we ain't changing now  
You can find us sun up to sun down yeah  
Just keeping it small town  
We're keeping it small town

Yeah we're all just backbone blue-collar people  
Burning that Texaco black smoke diesel

Yeah we're keeping it small town, keeping it slow  
Keep that dust stirred up on them ol' dirt roads  
Yeah we keeping them girls up in them shotgun seats  
Got that good stuff waiting on the end of the week  
It's the way we were raised and we ain't changing now  
You can find us sun up to sun down yeah  
Just keeping it small town  
We're just keeping it small town
