

She Likes It

Jason Aldean

She don't like it, catching cabs downtown
The noisy crowd, the people when the bar shuts down
She don't like it when it rains, don't like the color gray
But if I know anything

I know she likes it ridin' all night long
Shotgun, next to me
A little whiskey when the week's all gone
Gets her wild and running free
With the windows down
In a nowhere town
Getting lost somewhere to a song
I know she likes it ridin' all night long, yeah

She don't like it when it's eyes on her
Walking in the party, no that ain't her
And she don't like it when I cuss, don't like it when I smoke
She don't like it when she's all alone

I know she likes it ridin' all night long

Shotgun, next to me
A little whiskey when the week's all gone
Gets her wild and running free
With the windows down
In a nowhere town
Getting lost somewhere to a song
I know she likes it ridin' all night long, yeah

She likes to lean on in, likes to kick on back
She likes it when we go fast

I know she likes it ridin' all night long
Shotgun, next to me
A little whiskey when the week's all gone
Gets her wild and running free
With the windows down
In a nowhere town
Getting lost somewhere to a song
I know she likes it ridin' all night long, yeah

I know she likes it ridin' all night long, yeah
