

Somewhere Tonight

Jason Blaine

Somewhere tonight there's a boy in a snapback
Gassing up a step-side ready to roll
Somewhere tonight there's a girl on front step
Waiting on headlights to drive up the road
And they can't wait to get too gone
It's the same story brand new song

Long as they're making small town sunset sets
Getaway Chevy's and old back roads
Long as they're mixing coke & whiskey
Long as there's country's on the radio
There's gonna be blue jean kids holding on tight
Kickin' round, some town, somewhere tonight
Kickin' round, some town, somewhere tonight

Somewhere tonight he's got his Levis jacket
Wrapped around her shoulders on a dropped tailgate
Counting stars, talkin' bout forever
Like his mama and daddy did back in the day
And it ain't ever gonna change

Long as they're making small town sunset sets
Getaway Chevy's and old back roads
Long as they're mixing coke & whiskey
Long as there's country's on the radio
There's gonna be blue jean kids holding on tight
Kickin' round, some town, somewhere tonight
Kickin' round, some town, somewhere tonight

Long as they're making small town sunset sets
Getaway Chevy's and old back roads
Long as they're mixing coke & whiskey
Long as there's country's on the radio
There's gonna be blue jean kids holding on tight
Kickin' round, some town, somewhere tonight
Kickin' round, some town, somewhere tonight
