(Spotlight light yeah)
(Spotlight light yeah)
(Spotlight light yeah)
(Spotlight light yeah)

Your red dress might burn this place down
Your body talk is talking out loud
Spinning on the dance floor
In the middle of the crowd

But I can't take my eyes off you
With the way you move
I'm gonna pay that DJ so he keeps on playing your song
Go, go, go, baby steal that show
I'm gonna get you whatever you need to keep the night on
You got that runaway look
You shine like Hollywood
Camera, action, you're the star tonight
Girl, you got the spotlight light yeah
Girl, you got the spotlight light yeah

Breathing you in, feeling your skin, your touch
Yeah, I can feel your heartbeat beating like a kick drum
And you got me spinning, going crazy
In the middle of the crowd

But I can't take my eyes off you
With the way you move
I'm gonna pay that DJ so he keeps on playing your song
Go, go, go, baby steal that show
I'm gonna get you whatever you need to keep the night on
You got that runaway look
You shine like Hollywood
Camera, action, you're the star tonight
Girl, you got the spotlight light yeah (got the spotlight)
Girl, you got the spotlight light yeah (got the spotlight)

Don't stop, don't stop
Keep doing what you're doing baby
Don't stop, don't stop
Keep doing what you're doing baby

Cause I can't take my eyes off you
With the way you move
I'm gonna pay that DJ so he keeps on playing your song
Go, go, go, baby steal that show (steal that show)
I'm gonna get you whatever you need to keep the night on
You got that runaway look
You shine like Hollywood
Camera, action, you're the star tonight
Girl, you got the spotlight light yeah (got the spotlight)
Girl, you got the spotlight light yeah (got the spotlight)
Girl, you got the spotlight light yeah (got the spotlight)
Girl, you got the spotlight light yeah
