

The Road That Raised You Up

Jason Blaine

I wanna know where your hometown is
I wanna go where you spent those nights
Cheering for the home team with your besties
Under those Friday lights
I wanna meet your mama
I wanna meet your dad
Tell me do you wanna, take me back

Was it a red dirt road or an old two-lane
Did you leave one day in a cloud of dust
Lay down some blacktop marks, break some hearts
Did you tear 'em up
What made you who you are that made me fall in love
Baby, take me down
Take me down
The road that raised you up

Where'd you learn how to drive that truck
Where'd you get that fire inside
Take me back all the way, to that place before you were mine
Where you spent your Sundays, girl
Where you got that heart
Show me around your world
Take me right back to the start

Was it a red dirt road or an old two-lane
Did you leave one day in a cloud of dust
Lay down some blacktop marks, break some hearts
Did you tear 'em up
What made you who you are that made me fall in love
Baby, take me down
Take me down
The road that raised you up

The road that raised you up...

I wanna meet your mama
I wanna meet your dad
Show me around your world, baby, take me back

Was it a red dirt road or an old two-lane
Did you leave one day in a cloud of dust
Lay down some blacktop marks, break some hearts
Did you tear 'em up
What made you who you are that made me fall in love
Baby, take me down
Come on, take me down
The road that raised you up

The road that raised you up...
The road that raised you up...
The road that raised you up...
