

# Boba

Jason Chen

I, I close my eyes, I think about you and I smile  
Every time I taste you it takes me back in time  
When we were young and so alive  
Thinking memories the best times of my life

I want coffee when I'm waking up  
Tequila to keep a good buzz  
Protein shakes to keep me in shape  
In the summer ice cold lemonade  
Red wine so classy  
Champagne so fancy  
Juicing so healthy yea  
No matter how much I love other drinks  
I keep coming back to you

You were my first love, Boba  
Love you forever, Boba  
Drink it all, get some more, it's so sweet like honey yeah  
Who the hell needs soda, when I got Boba

You, your chewy sugar carby goodness saved my life  
Every time that I feel down you make me smile  
You know the thirst for you is real  
But you can't put a price on how you make me feel

I want coffee when I'm waking up  
Tequila to keep a good buzz  
Protein shakes to keep me in shape  
In the summer ice cold lemonade  
Red wine so classy  
Champagne so fancy  
Juicing so healthy yea  
No matter how much I love other drinks  
I keep coming back to you

You were my first love, Boba  
Love you forever, Boba  
Drink it all, get some more, it's so sweet like honey yeah  
Who the hell needs soda, when I got Boba

Anywhere I go, as long as I have Boba it feels like  
Anywhere I go, Boba feels like home

You were my first love, Boba  
Love you forever, Boba  
Drink it all, get some more, it's so sweet like honey yeah  
Who the hell needs soda, when I got Boba
