

Delusional

Jason Chen

You're like whiskey in the sunrise
I take every shot of you
You're the sugar in the moonshine
Too sweet for me

Sometimes I'm cold
But I will always keep you warm
So don't let go
'Cause I love it when you're here in my arms

Can't escape, on my mind all day
Am I delusional, delusional, delusional
And I hope you want it like I do
Am I delusional, delusional, delusional

I remember when we first met
You asked me for my number
Still remember how the sunset
You still had an ex-lover
Didn't know it was a first date
But it happened on a Tuesday
Hours later at your doorway
I'm so lucky that you chose me

Sometimes I'm cold
But I will always keep you warm
So don't let go
'Cause I love it when you're here in my arms

Can't escape, on my mind all day
Am I delusional, delusional, delusional
And I hope you want it like I do
Am I delusional, delusional, delusional

'Cause I've...
Slipped and fallen in love this time
Am I...
Delusional, delusional, delusional

Oh-oh-oh...
You've got me here looking crazy, my baby
You know there's no if and buts or maybe, my baby
'Cause I...

Can't escape, on my mind all day
Am I delusional, delusional, delusional
And I hope you want it like I do
Am I delusional, delusional, delusional
'Cause I've...
Slipped and fallen in love this time
Am I delusional, delusional, delusional
