

Glass Heart

Jason Chen

I used to think that life was leading me down the wrong road
I tried to fight something something that I can't control
But looking back on it all I'm grateful for everything
Now used to the journey that lead you to me

Before I met you
I had my guard up and felt so invincible
And now I'm handing you the little piece of me
I thought was unbreakable

So keep it safe cause I can't take
If you break my fragile heart
I'm here to stay, go all the way
So please don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart

Oh please don't shatter my glass heart

I've given myself to you, so please handle with care
No you got nothing to fear cause I ain't going anywhere
I'll cherish our love unconditionally cause I was blind
And you help me see

Before I met you
I had my guard up and felt so invincible
And now I'm handing you the little piece of me
I thought was unbreakable

So keep it safe cause I can't take
If you break my fragile heart
I'm here to stay, go all the way
So please don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart

I'll keep it safe
No I won't break, no I won't break your fragile heart
You're here to stay
Let's go all the way
No I won't break your fragile heart

So don't shatter my heart, don't shatter my heart
Don't shatter my glass heart
Don't shatter my heart, don't shatter my heart
Don't shatter my glass heart

So keep it safe cause I can't take
If you break my fragile heart
I'm here to stay, go all the way
So please don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart

Don't shatter my, shatter my glass heart
Don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart
Don't shatter my, shatter my glass heart
Don't shatter my glass heart
