

Holiday

Jason Chen

It doesn't come just once a year
It's whenever you are near
All my troubles melt away
Good times are here to stay

Yeah it's true, yeah it's you
Don't need a special day to feel brand new
Yeah it's true, yeah it's you
Like a holiday made for two

I don't need Saint Valentine
To remind me to make you mine
Tell Cupid to take a break
Cause your love is my holiday
Don't need to wait 'til Christmas Eve
Cause everyday I'll give you all of me
So tell Cupid to take a break
Cause your love is my holiday

Halloween don't mean a thing
Cause you don't need a costume to be my queen
I don't need 4th of July
Cause when I look into your eyes all the sparks fly

Yeah it's true, yeah it's you
Don't need a special day to feel brand new
Yeah it's true, yeah it's you
Like a holiday made for two

I don't need Saint Valentine
To remind me to make you mine
Tell Cupid to take a break
Cause your love is my holiday
Don't need to wait 'til Christmas Eve
Cause everyday I'll give you all of me
So tell Cupid to take a break
Cause your love is my holiday

I don't need a special day
To celebrate, to celebrate
Cause any day that I'm with you
Is a holiday, my holiday

I don't need Saint Valentine
To remind me to make you mine
Tell Cupid to take a break
Cause your love is my holiday
Don't need to wait 'til Christmas Eve
Cause everyday I'll give you all of me
So tell Cupid to take a break
Cause your love is my holiday
