

Miracle

Jason Chen

A snowy day in December far from home
Had to get out of the cold
Feels like it's 30 degrees below
My heart froze

Everywhere I look people gather around
Filled with Christmas cheer
I'm so lost trying to find the one
I can't hold so dear

Then you came right in and you warmed me up
Like we're made of hot chocolate on a wintery day
Just when I gave up
You showed me life don't seem so bad with the gift of love

Send me a miracle
Send me a miracle
I need a miracle
You are my miracle
Miracle

When I'm lost you know just where to find me
When I kiss, see, I know you're beside me
You are my miracle
My miracle

I still remember like it was yesterday
When I saw your face
On that Christmas Eve I knew
I want to grow old with you

My life would never be the same (be the same)
Without you in my warm embrace (warm embrace)
You're the fireplace inside my heart
Forever we'll share the spark

Send me a miracle
Send me a miracle
I need a miracle
You are my miracle
Miracle

When I'm lost you know just where to find me
When I kiss, see, I know you're beside me
You are my miracle
Miracle

Send me a miracle
Send me a miracle
I need a miracle
You are my miracle
Miracle

When I'm lost you know just where to find me
When I kiss, see, I know you're beside me
You are my miracle
My miracle.
