

# One More Day

Jason Chen

Remember you said you're just one call away?  
You'd pick up the phone any time of the day  
Now I'm tryna reach you but I can't shake the fear  
That I'll be leaving voicemails that you won't ever hear

So many things I still need to say (I still need to say)  
If we could just have one more day

How could you be gone?  
This just has to be wrong  
I said, "See you soon", this can't be true  
It's not true, ooh-ooh-ooh

One more day, one more hour  
One more minute, ooh-ooh-ooh  
One more day, one more second  
One last moment with you

Every day I wake up, pray it's a dream  
Time passes by, I still search for peace  
I know you're watching over me from up in heaven  
And I'ma hold it down for you till I see you again

So many things still left to do (still left to do)  
Waited too long, you left too soon

One more day (one more day), one more hour (one more hour)  
One more minute (one more minute), oh  
One more day (one more day), one more second (one more second)  
One last moment with you

Looking back on every moment spent with you  
Nothing's promised in this life, you're gone too soon  
So much more to say, so much more to do  
More to do, I miss you

How could you be gone?  
This just has to be wrong  
I said, "See you soon", this can't be true  
It's not true, oh no  
No, no, no

One more day (one more day), one more hour (one more hour)  
One more minute (one more minute), oh  
One more day (one more day), one more second (one more second)  
One last moment with you

Give me one more day with you
