

Side Effects

Jason Chen

What is this feeling?
What is this need?
This thing got me sick just like a disease
I'm going numb and it's hard to breath
'Cause when I'm with you, I can't feel a thing

Ooh your touch is dangerous
Hypnotic I can't get enough
You're a havoc I can't shake this love
Falling deeper and deeper

I'm addicted you're a drug to me
I felt the symptoms when you swept me off my feet
High-igh like the moon,
Oh I'm feeling the side effects of loving you
(Side effects of loving you)
High, high, high, high
High, high, high, high
(Side effects of loving you)
High, high, high, high
High, high, high, high
(Side effects of loving you)

When you are near I can't hear a sound
Hopelessly blind to all that's around
Licking my lips, craving the taste
That yearning inside just won't go away

Ooh your touch is dangerous
Hypnotic I can't get enough
You're a havoc I can't shake this love
Falling deeper and deeper

I'm addicted you're a drug to me
I felt the symptoms when you swept me off my feet
High-igh like the moon,
Oh I'm feeling the side effects of loving you
(Side effects of loving you)
High, high, high, high
High, high, high, high
(Side effects of loving you)
High, high, high, high
High, high, high, high
(Side effects of loving you)

I'm addicted babe...
High-igh (high-igh)
I'm addicted babe...
High-igh
Side effects of loving you
(Side effects of loving you)

I'm addicted you're a drug to me
I felt the symptoms when you swept me off my feet
High-igh like the moon,
Oh I'm feeling the side effects of loving you
(Side effects of loving you)

High, high, high, high
High, high, high, high
(Side effects of loving you)
