

Thank You

Jason Chen

Been thinking about all the days you were
Right by my side
Been thinking about how you never
Left me behind
And all of the things that you said to
Help me ease my mind
And I don't know where I'd be
Without you in my life

Now I just
Wanna tell you how much
I appreciate your love

So I'll be there when you call
Pick you up when you fall
And if you ever get lonely
I'll be there in a heartbeat

This song is for you
For everything we've been through
It's been so long overdue
I just wanna say
Thank You

Been trav'ling this road for so long
We're still going strong
Cuz without you here I'd be nothing
Nothing at all
Even when times were bad you believed in me
And now I'm standing tall
And I just wanna thank you
For sticking through it all

Now I just
Wanna show you how much
I appreciate your love

So I'll be there when you call
Pick you up when you fall
And if you ever get lonely
I'll be there in a heartbeat

I know it's not easy
but you were there from the start

I'll take the kindness you've shown me
share the love, and the strength
(Pay it forward) Be all we can be

So I'll be there when you call
Pick you up when you fall
And if you ever get lonely
I'll be there in a heartbeat
