

Throwback

Jason Chen

Got a 90s love
Wanna show up at your door
With roses, yeah
You're giving me fever
With my hands on your waist
Like we're prom posing, yeah

I'll be Ross, you'll be Rachel
You can tell all your friends
I will always love you
Take this road to the end
All our songs on a mixtape
Straight from the radio
Baby you can put your phone down
We in the zone now

It's so fantastic
This love is a classic
No filter in a Kodak
Feeling like we a throwback
It's just like magic
This love is classic
No filter in a Kodak
Feeling like we a throwback

This love is a...
Throwback, throwback
Throwback, throwback
Throwback, throwback
Throwback, throwback

I drop you off midnight
And we're walking hand in hand
Under the moonlight
This feels like some kinda movie
We could rewind (We could rewind)

I'll be Ross, you'll be Rachel
You can tell all your friends
I will always love you
Take this road to the end
All our songs on a mixtape
Straight from the radio
Baby you can put your phone down
We in the zone now
