

# Kiss the Sky

Jason Derülo

Don't know when we going home  
(But your friend could come along)  
I'm thinking why not, baby, why not...!?  
I'm looking good, don't wanna blink  
Mary tells me I'm a king  
I'm thinking why not, baby, why not?

Take a sip, take a sip now  
Take it down, take it down now  
Say ah, say ah, say ah, say ah  
Oh, do your dance, do your dance now  
Sing it loud with me right now  
Say ah, say ah, say ah, say ah

'Cause I believe we can fly now  
Spread your wings and kiss the sky  
Yeah babe, we can fly now  
Spread your wings, we're miles high  
So we can kiss the sky

My new girl headline the news  
But my ex still coming through  
And I'm thinking why not, baby, why not?  
Ain't nothing gon' stop the funk  
I'm gon' make you pop your trunk  
I'm thinking why not, baby, why not?

Take a sip, take a sip now  
Take it down, take it down now  
Say ah, say ah, say ah, say ah  
Oh, do your dance, do your dance now  
Sing it loud with me right now  
Say ah, say ah, say ah, say ah

'Cause I believe we can fly now  
Spread your wings and kiss the sky  
Yeah babe, we can fly now  
Spread your wings, we're miles high  
So we can kiss the sky

Tell you all my deepest, darkest secrets  
If you let me funk you, if you let me funk you  
I just wanna let you baby  
I just bought a mansion, you can keep it  
If you let me funk you, if you let me funk you, yeah  
Top down all day, got that broccolli  
6 girls, G6, head to Miami  
Tell you all my deepest, darkest secrets  
If you let me funk you, if you let me funk you

'Cause I believe we can fly now  
Spread your wings and kiss the sky  
Yeah babe, we can fly now  
Spread your wings, we're miles high
